

**Execution of Major Andre.**

Dr. Hall, of East Hartford, a surgeon in the army of the Revolution, was an eye-witness to the execution of Major Andre, standing within four or five rods of the scene. Noticing some inaccuracies in the article we published from the Knickerbocker, a few days ago, he has called and related to us the following particulars.— He states that Major Andre walked to the place of execution behind the cart, accompanied by two officers, one on each side, stopped under the gallows. Arrived there, he immediately stepped up into the cart, when the officer of the day, Col. Scammell, said to him, "if you have any thing to say, you now have an opportunity." He replied, "I have nothing to say, but to have you bear witness that I die like a brave man." Col. S. then told the hangman to do his duty. He went to work so awkwardly in attempting to put the noose over Andre's neck, that Andre took it from him and made an effort to do it himself. But his hat being in the way he let go the rope, took off his hat and stock, and laid them on the coffin, and unbuttoned his shirt collar and turned it down. He then put the noose over his head, and adjusted it to his neck; took out of his pocket a white handkerchief, with which he bandaged his eyes; and a blue ribbon, which he handed to the executioner, requesting him to tie his hands behind him. This being done, Col. Scammell directed the cart to be driven away. Andre was a small man and seemed hardly to stretch the rope, and his legs dangled so much that the hangman was ordered to take hold of them and keep them straight. The body was cut down after hanging fifteen or twenty minutes, and buried near the gallows. From the location of the grave, Andre must have passed it in going to the place of execution.

The Doctor thinks the account relative to the attempts made by Washington to secure Arnold and liberate Andre must be incorrect. The Court which sentenced Andre to death, having been held on the 29th of September, only three days before his execution, the time allowed was not by any means sufficient to permit such plans to be successfully carried out, especially the one in which Champe was said to have been concerned.—*Hartford Courant.*

**A quick way to get Rich.**

A Miss Ingram, of Pontiac, some time since was perusing a Texas paper, and observed among the persons that bore a prominent part of the affairs of that Government, a man bearing her own name, and jocosely remarked to her companions, that she had found a namesake in Texas, and intended to write to him and claim relationship. This resolution, more from curiosity and a desire of novelty, than from any conviction that her hope would be realized, was carried into effect. She wrote him a respectful letter, giving him a history of her family and parentage, and suggesting that as the name was not as common as most of the names of our country, the probability was strong that a relationship existed between them. She received in reply, a friendly and affectionate letter, acknowledging her as a cousin, and expressing an earnest desire that the correspondence might be continued.

This was readily acceded to, and it was carried on agreeably and satisfactorily to both parties, until very recently, when she received intelligence of his death, and information that in his will he had bequeathed her the handsome sum of \$20,000 in gold and silver, leaving his personal property and land estate to his relatives in that country. A few days previous to the reception of this joyful communication, she had connected her fortunes with those of a Methodist Clergyman, and should their deeds of charity comport with their means, the widow's heart will be filled with joy, and many an orphan live to implore blessings upon the heads of their benefactors, for the deeds of their benevolence and generosity.—*Michigan Northern Advocate.*

Why is the letter T like an island? Because it is in the middle of water. Why is an oyster like a highway? Because it cannot be used until it is opened.

**AN IMPRISONED FROG.**—A short time since as a shipwright in the employ of Messrs. J. & W. Champion was sawing a piece of oak 35 feet long and two in diameter, he discovered at about 12 feet from the root, a small cavity in the centre of the wood, which contained a frog. The surrounding part of the timber was perfectly sound, indeed in the whole piece there was not even a crack. The frog was immediately removed and placed by the man in his tobacco box. Nourished by the heat of his pocket the reptile soon evinced symptoms of life, but as it was confined in such an unhealthy atmosphere, it was not very lively—nevertheless, it lived more than eighteen hours. It is supposed that the tree is upwards of 200 years old. The frog is now in the possession of W. Champion Esq.—*Yorkshire Gazette.*

Boston now has a population of 93,452.

**Actual Results.**

The following are the actual results as far as heard from, making 234 electoral votes for Harrison, to 55 votes for Van Buren.

10 barrels of No. 3, Mackerel, just received and for sale, by

WILLIAM EASTBURN.  
Stroudsburg, Aug. 14, 1840.

**THE CONSTITUTION.**

What is that we call the Constitution? The constitution is evidently that which constitutes, and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost health, does not wish to have it restored. Use then the proper means. Expel with Purgative Medicine all corrupt humors from the body, and the blessing, Health, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the only disease to which the human frame is subject, because they clog up the veins and arteries, and prevent the free circulation of the blood.

Brandreth's Vegetable Universal Pills cure this disease: because they remove the corrupt or vitiated humors by the stomach and bowels, leaving the good humors to give life and health to the body. It is morally impossible that they can fail to cure, provided Nature is not entirely exhausted.

Dr. Brandreth's Office for the sale of his pills in Philadelphia, is No. 8, North Eighth street. Sold in Stroudsburg, by RICHARD S. STAPLES, in Milford, by J. H. BRODHEAD, and in Monroe and Pike counties, by the agents published in another part of this paper.

October 16, 1840.

**CARDING AND FULLING.**

The Carding and Fulling business, will be carried on by the subscriber at the above named stand and he would be pleased to receive the patronage of his old customers and the public generally. The price of wool carding will be 4 cents cash or 6 cents trust per pound. Wool or cloth will be taken away and returned when finished at J. D. & C. Malvin's store, Stroudsburg, on Saturday of every week, where those indebted to the late firm, can meet the subscriber and settle their accounts. Bushkill, June 1st. J. A. DIMMICK.

**BLANK DEEDS**

For sale at this office.

**KEEP IT BEFORE THE PEOPLE.**

**Doct. Joseph Priestly Peters'**

**CELEBRATED VEGETABLE ANTIBILIOUS PILLS,** are daily effecting some of the most astonishing and wonderful cures that have ever been known, the town and country are filled with their praise, the Palace and Poor-house alike echo with their virtues in all climates and under all temperatures they still retain their wonderful virtues.

**PETERS' VEGETABLE PILLS.**

Breathes there the man who may not be occasionally benefited by the use of Peters' Pills? No, assuredly not; for the human frame, like any other structure, will fall into confusion and ruin, if neglected; but, by the aid of medicine judiciously applied, it is enabled to preserve a healthy and even tone; and it is the first of well-tested public opinion, that Dr. Peters' pills are the medicine of medicines in the prevention or cure of the general diseases which the human tenement is incidental to.

Do men in robust health require medicine? Certainly, for the very excess of health begets certain diseases unless duly regulated. If the blood is suffered to run riot without correcting laxatives, costiveness, megrim, bilis, scurvy, spleen, pimples, furred tongue, or offensive breath, are the inevitable consequences; for exuberance of health, like over-rich soil, becomes rank, and prone to the production of weeds, if care is not taken to have it judiciously moderated.

But healthy men have an antipathy to the very name of medicine! And no wonder, for nineteenth-twentieths of all the medicines in the world, commence operations by making the people very sick, whom it was intended they should make very well; and thus in most cases the cure is considered rather worse than the disease. But Dr. Peters' Pills is the celebrated and particular exception to this almost universal rule. In them there is no gripe, no nausea, no sickness of any kind; nay, they are absolutely very pleasant to the taste, and rest as quietly on the stomach as so many confits of green peas, even when their operations are as sudden and effective, as if they were as disagreeable and as sickening as an old fashioned belus. Thus the man who uses Peters' Pills, find where is the man that does not use them? They expel headaches, fevers, blue devils, blotches, pimples, &c. &c. and makes his blood course as limpid and as gently through his veins as a mountain rivulet, without having put himself to any more inconvenience in taking the medicine than he would have done in swallowing so many black currants.

Should ladies take Dr. Peters' Pills? Doubtless they should, for they not only assure them of health, complacency of spirits, and every bodily comfort, but through their miraculous agency in the purification of the blood, speedily remove every thing pertaining to harshness, pimples, or casual scurvy, from the flesh, animates the eye, and gives an elasticity and a vigor to the limbs, and the general carriage; and hence, when you see a lady with a cheek of velvet softness, a pure lily and carnation complexion, and an easy & graceful bearing, the general inference to be drawn is, that she is her own physician, and very particular in the choice of her medicine; and the especial one, that she is a patron of Peters' Pills.

Leaving health out of the question, should poets, novelists, editors, machinists, and men of genius and science in general, patronise Peters' Pills? Unquestionably, for the vigor which they impart to the frame, exercises a most wholesome influence upon the intellect; and the writer of this feels justified in saying, that any person about to carry out an idea, whether of composition or invention, will have a more lucid understanding of his subject, and think better and more to the point on it, after he has vivified his system by a dose of from one to four of Peters' Pills. Persons in business, merchants, store keepers, clerks, speculators, &c. will derive great advantage from them on the same principle, for if the mind is not buoyant, no man can attend to the usual pursuits of life with due perspicuity, judgment, and pleasure and there is nothing in the world, at least that has been ever discovered, so efficient in brightening the faculties, and freeing them from participating in the languor, decay, and imperibility of their mortal abode as Dr. Peters' pills.

What may be attributed these singular and wonderful effects? Why, to their mysterious and inevitable action upon the chyle, and that particular region of the system whence the living fluid is generated; for thus they do not only purify the blood, but create pure blood, the issue of which is healthy veins, arteries, and other functions, unobscured vision, firm and pulpy flesh, smooth and clear skin, and the consequent buoyancy of heart, feeling, and action. In short, whether we take them as a matter of health, business, feeling, or personal appearance, there is none of us should leave our houses without a regular supply of Peters' Pills.

More than six millions of boxes of these celebrated pills have been sold in the United States, Canada, Texas, Mexico, and the West Indies, since January 1835. The certificates that have been presented to the proprietor, exceed 20,000, upwards of 500 of which are from regular practicing physicians—who are the most competent judges of their merits.

**TESTIMONIALS.**

**OPINIONS OF THE REGULAR FACULTY.**

The following are but a few taken at random, from a pile of complimentary epistles forwarded to Dr. Peters by regular physicians, touching the efficacy of his pills. He feels proud and grateful in being able to lay such documents before the public.

New Orleans, April 24, 1837.

Dear Sir—As an old classmate of yours in Yale college, I take the liberty of opening a correspondence.

I learn that you are making a fortune by the sale of your pills, which I trust is the case as I am fully aware that through them you are conferring a great blessing on the public.

I myself am among those who have been peculiarly benefited by their use. Since my arrival here I had been subject to severe bilious attacks, which had nearly brought me to the grave, but (and I acknowledge it with gratitude,) a few boxes of your pills have completely restored me. I would add that their effect upon Sick Headache and sour stomach is almost marvellous.

With sentiments of esteem,

R. M. SHEPHERD, M. D.

Clarksville, Mecklenberg Co., Va., Feb. 7, 1837.

Dear Sir—I embrace this opportunity of expressing to you my pleasure at the unrivalled success of your pills in this section of the country. It is the general fault of those who vend patent medicines to say too much in their favor; but in

regard to your pills I am firmly persuaded that they deserve far more praise than you seem inclined to give them. Six months ago they were scarcely known here, and yet at present there is no other medicine that can compare with them in popularity. In Dyspepsia, Sick Headache, derangement of the Biliary organs, and obstinate constipation of the bowels, I know of no aperient more prompt and efficacious; and I have had considerable experience in all these complaints.

I would add that their mildness and certainty of action render them a safe and efficient purgative for weekly individuals; and that they may be given at all times without apprehension of any of those injurious consequences which so frequently attend the application of calomel, or blue pill. On the whole I consider your Vegetable Pills an invaluable discovery.

Very respectfully,  
S. H. HARRIS, M. D.

Charlotte, N. C., January 1, 1837

Dear Sir—I have made frequent use of your pills in the incipient stage of Bilious Fever, and obstinate constipation of the bowels; also in the enlargement of the Spleen, Chronic Diseases of the Liver, Sick Headache, General Debility, and in all cases have found them to be very effective.

J. D. BOYD, M. D.

Mecklenberg Co., Va., February 7, 1837.

Having used Dr. Peters' Pills in my practice for the last twelve months, I take pleasure in giving my testimony of their good effects in cases of Dyspepsia, Sick Headache, Bilious Fevers, and other diseases, produced by inactivity of the liver. They are a safe and mild aperient, being the best article of the kind I have ever used.

GEORGE C. SCOTT, M. D.

Extract of a letter by Dr. Joseph Williams, of Burlington, Vt. July 9, 1837.

"I cordially recommend Peters' Pills as a mildy effective, and in no case dangerous family medicine. They are peculiarly influential in costiveness and all the usual diseases of the digestive organs."

Extract of a letter from Dr. Edward Smith, of Montreal, U. C. September, 29, 1836

"I never knew a single patent medicine that I could put the slightest confidence in but Dr. Peters' Vegetable Pills, which are really a valuable discovery. I have no hesitation in having it known that I use them extensively in my practice, for all complaints, (and they are not a few) which have their source in the impurity of the blood."

Extract of a letter from Dr. Pye, of Quebec, L. C., March 6, 1837

"For bilious fevers, sick headaches, torpidity of the bowels, and enlargement of the spleen, Dr. Peters' pills are an excellent medicine."

Those who have used these valuable Pills in this State, give them the preference to all other kind. Prepared by Joseph Priestly Peters, M. D. inventor and sole proprietor, No. 129 Liberty street, New York.

These Valuable Pills can be obtained of Doct. Samuel Stokes and J. D. & C. Malvin's, Stroudsburg, only agents for Monroe county. Stroudsburg, October 23, 1840.

**CURING PRACTICE.**

The principle of purifying the body by purging with vegetable physic is becoming more and more understood as the only sensible method by which sound health can be established. Hundreds of individuals have become convinced of this doctrine, and are daily acknowledging the practice to be the best ever discovered. Now is the unhealthy season when our bodies are liable to be affected with disease; and now is the time the state of the stomach and bowels should be attended to, because on the healthy state of those organs depends the healthy state of the general system; and every one will see at once, if the general health be bad while that remains, local disease cannot be cured.

All the medicine that is requisite to restore the body to a state of health is Brandreth's Vegetable Universal Pills, which have performed cures upon thousands of helpless and hopeless persons, after the usual scientific skill of physicians have consoled them with the assurance that they could do no more. The properties of these Pills as anti-bilious and aperient medicine are unrivalled; all who use them recommend them, their virtues surpass all eulogy, and must be used to be appreciated. The weak and delicate will be strengthened by their use, not by bracing but by removing the cause of weakness, the gross and corrupt humors of the body. They require no change in diet or care of any kind. Plain directions accompany each box, so that every one is his own competent physician. Remember, none are genuine sold by Druggists.

DR. BRANDRETH'S Office in Philadelphia for the sale of his Pills, is No. 8, North Eighth street.

Agents for Monroe and Pike Counties are at the following places.

**MONROE COUNTY.**

Stroudsburg, RICHARD S. STAPLES. New Marketville, TROXEL & SCHUCH. Dutotburg, LUKE BRODHEAD.

**PIKE COUNTY.**

Milford, JOHN H. BRODHEAD. Bushkill, PETERS & LABAR. Dingsman's Ferry, A. STOLL & Co.

Observe, no pills are genuine sold under the name of Brandreth's in Monroe or Pike counties, except those sold by the above agents.

B. BRANDRETH, M. D.

October 16, 1840.—1y.

**NOTICE.**

The partnership of the undersigned heretofore trading under the firm of HENRY, JORDAN & Co., was dissolved by mutual consent on the 29th of August last.

JOHN JORDAN, JR. & JOHN F. WOLLE, two of the late partners are duly authorized to use the name of the late firm in the settlement of their business.

WILLIAM HENRY, JOHN JORDAN, JR. JOHN F. WOLLE.

Stroudsburg, Nov. 2, 1840.

5 boxes Box Raisins, just received and for sale by

WILLIAM EASTBURN.

Stroudsburg, Aug. 14, 1840.

**Stagnation of the Blood.**

The repeated changes in the atmosphere, by acting as they do upon the consistence and quality of the blood, give occasion for the most fatal and malignant disorders. The blood from a state of health becomes stagnant and is plunged into a state of corruption.

Thus it loses its purity: its circulation is impeded; the channels of life are clogged; the bowels become costive; and if not an immediate attack of some malignant fever, headache, nausea, loss of appetite, and a general debility of the whole frame are sure to follow.

It requires the tempest and the tornado to bring about a state of purity in the ocean, when its waters become stagnant; and it will require repeated evacuation by the stomach and bowels before the blood can be relieved of its accumulated impurity.

**Brandreth's Vegetable Universal Pills,**

should be taken, then there will be no danger; because they purge from the stomach and bowels these humors which are the cause of stagnation, cleanse the blood from all impurities, remove every cause of pain or weakness, and preserve the constitution in a state of health and vigor that casual changes cannot effect.

Dr. Brandreth's Office for the exclusive sale of his Vegetable Universal Pills, in Philadelphia, is at No. 8, North Eighth street. Price 25 cents per box.

For sale by RICHARD S. STAPLES, in Stroudsburg; in Milford by J. H. BRODHEAD, and in Monroe and Pike counties by agents published in another part of this paper. October 16, 1840.

**Harrison's Specific Ointment.**

The great celebrity of this unrivalled Composition—especially in the Northern States—leaves the proprietor but little need to say any thing in its favor; for it has been generally conceded to it, that it is beyond all comparison the best remedy for external complaints that has ever been discovered. Indeed the speed and certainty of its operations have the appearance of miracles: as ulcers, wounds, corns, fever sores, chilblains, white swellings, bites, piles, spider and snake bites &c.—immediately yield to its apparently super human influence. Thus if properly applied it will remove an inveterate corn or break and heal a btle in five days, will allay and perfectly cure an ulcer in two weeks; and the most desperate cases of white swelling that can be imagined, have been destroyed by it in less than two months. In the bites of poisonous reptiles its efficacy is truly surprising; and even in the bite of a rabid dog, for if applied in time, its powers of attraction are so wonderful that they will at once arrest the poison and thus prevent it from pervading the system. It is likewise greatly superior to any medicine heretofore discovered for the chafed backs and limbs of horses—for fetters, ring wounds, chapped lips,—and in short for every external bodily evil that may fall to the lot of man or beast.

The proprietor has received at least a thousand certificates and other documents, in favor of his "Specific Ointment" upwards of a hundred of which were written by respectable members of the Medical Faculty; and in selecting from this pile the following samples, he was governed more by their brevity, than their contents, as they all breathe the same spirit of eulogy and satisfaction.

**CERTIFICATES.**

Albany, July 9, 1837.

To, Dr. Harrison, Sir: I use your Specific Ointment in my practice and cordially recommend it as a most efficient remedy for Tumors, Ulcers, White Swellings, Scrofula, Rheumatic Pains, Chapped Face, Lips and Hands; and for general and external complaints. I write this at the request of your agent here, who furnishes me with the article, and am pleased to have it in my power to award honor to merit.

RUFUS R. BEACH, M. D.

Extract of a Letter from Dr. J. W. Sanders, of Louisville, Ky. October 8, 1837.

"I am prepared to say, that for Rheumatic Pains and the Sore Breasts of females, Harrison's Specific Ointment has no superior, if indeed it has any equal, in the whole catalogue of external medicines, as known and prescribed in this country."

Extract of a letter from Dr. Potts, of Utica, N. Y. Dated July 28, 1838.

"Harrison's 'Specific Ointment' is, in my opinion, a most important discovery; and is particularly efficient in scrofulas, ulcers, sore legs, eruptions, and general outward complaints, speak of its merits from an experience of four years"

Cincinnati, Ohio, Oct. 4, 1838.

To Dr. Harrison, Dear Sir, I write to congratulate you on the extraordinary virtue of your 'Specific Ointment,' in the curing of burns. A little boy of mine, 4 years old, fell against the fire-place three weeks since, when his clothes became ignited, and he was instantly enveloped in flames. After some difficulty the fire was extinguished, but before the poor little fellow's lower extremities were almost covered with a continual blister. Having much faith in your ointment, I immediately purchased three boxes, which I applied unsparingly, according to your directions in such cases; and it is with great pleasure and gratitude, that I am able to inform you that it allayed the pain in a few hours; and in ten days had effected a complete cure. I need scarcely add, that it ought to be in the possession of every family, as there is no telling when such accidents may occur.

Yours respectfully,

H. M. SHEPHERD.

A supply of this valuable Ointment just received and for sale by

SAMUEL STOKES,

Stroudsburg, Nov. 6, 1840.

**PAINTING & GLAZING.**

The Subscriber respectfully informs the public, that he is prepared to execute all kinds of Plain & Ornamental Painting, Glazing, &c.

at his shop nearly opposite the store of William Eastburn, where all orders in his line will be thankfully received and punctually attended to.
